Making Teaching GE Expectations Explicit

A Conversation Guide for Instructor-Assistant pre-term preparation

Expectations for discussion section:

- Do you expect/hope/plan that discussion should be for:
  - new subject content? e.g. discussing a new article, lecturing on a new topic
  - reviewing class content?
  - drilling down on critical terms/concepts?
  - developing skills? e.g. analytical or applied skills, maybe identified in the course syllabus
  - assignment/assessment discussion? e.g. going over feedback from graded assignments, preparing for upcoming tests
  - group discussion of critical topics?

- How do you see the discussion section relating to the main course?
  - complementary? e.g. filling in gaps in lectures/readings, clarifying confusion
  - additive? e.g. working on skills not covered in lecture, discussing new topics/content
  - stand-alone?

Expectations for grading and feedback:

- What is your target turnaround time for assignment feedback? Do you have different expectations based on the type of assignment/assessment?

- With regards to grading rubrics:
  - Do you have grading rubrics for assignments?
  - Do you want to have them?
  - Do you hope/expect the GE to develop a rubric or other appropriate grading system?

- What feedback do you expect from GEs to students?
  - corrections?
  - pointers rather than explicit corrections?
  - proofreading/editing? (i.e. writing mechanics)

- In what mode should feedback be provided?
  - online (i.e. via Canvas)?
  - in hard copy, with comments and grade written directly on assignment?
  - in hard copy, but with comments on a separate sheet/rubric attached?
