

## 4-Year Academic Plan Guidelines and Template

### Introduction

Four-year degree plans provide a term-by-term sample course schedule so that students can clearly see how they can complete each degree in four years. Four-year degree plans should include the General Education and Elective courses that must be selected to satisfy all area and multicultural requirements. Provide specific course examples where appropriate (Less-structured majors might just list where particular groups – Arts and Letters, Natural Science, Social Science - might be satisfied. Less-structured majors should also provide a sample of a typical 4-year plan). The milestones listed to the right of each term are designed to keep students on course to graduate in four years. Milestones might include target grades for key courses, completion of key courses by certain terms, and other non-course activities like a target GPA by a particular term, applying for graduation, beginning language requirements, etc. We've modeled this approach on Florida State's Academic Maps – you can see an example here: <https://goo.gl/BuuhXj>.

The sample schedule portion of the plans is important to communicate to students how they can complete each degree in 4 years. The “milestones” section of the plan may require discussion among faculty, staff and advisors to get a sense of those places in the curriculum that are critical in terms of timely completion and/or performance benchmarks.

Department: REEES

Degree, Major (BA Russian, East European, and Eurasian Studies, SOCIAL SCIENCE CONCENTRATION):

**Note:** Majors must choose field of concentration in either Humanities or Social Sciences; five and as many as seven courses may be from the field of concentration, four must be upper-level classes, two must be 400-level classes. Electives must come from at least two prefixes outside the field of concentration. I.e. if choosing the humanities concentration, four of these must be upper division, two must be 400 level, the fifth may be at any level. At least two of the four electives then must be outside humanities, such as history or political science, although more than two of the electives may come from outside the humanities. Language beyond third-year also counts towards either concentration. Students who have already completed part or all of the language requirement should substitute other courses for the language courses.

*The degree plan shown is only a sample of how students may complete their degrees in four years. There are alternative ways. Students should consult their advisor to determine the best path for them. Students can begin to explore on the departmental website: reees.uoregon.edu.*
